Touch Display (opt.)	●	●	●	●	●
Max. Drives	1	1	2	2	2
Max. Power supply	100 / 65 W	135 / 100 W	170 W	230 W	230 W
Weight (Starting)	1.35 kg	1.7 kg	2.2 kg	1.8 kg	2.95 kg

# P14s Gen 4 & P16s Gen 2

## What's New for 2023

- ☐ 16:10 Display Optimized Form Factor
- ☐ Available in metal finish w/ tone match KBD
- ☐ 14": 17.9mm thin / 1.34kg (2.97lb) \*
- ☐ 16": 20.5mm thin / 1.70kg (3.76lb) \*

- 🔄 Intel Raptor Lake P28
- 🔄 DDR5 & LPDDR5x Memory Options
- 🔄 RTX Nvidia Discrete Graphics Option (Intel)

- 🏠 All-Day Battery Life & Scalable Battery Options
- 🏠 Separate 5MP RGB + IR camera for an immersive video experience
- 🏠 Ultrasonic HPD enabled

- 📺 OLED Panel Offerings (2.8k on 14" and 4k on 16" ) for more efficient viewing
- 📺 Responsible Design
- 📺 115mm Glass-like TouchPad
- 📺 Service Friendly D Cover Design

- 🔒 BIOS Signing with Hardware Security Module
- 🔒 Capsule-based Firmware Updates

# P14s Gen 4 & P16s Gen 2 AMD

## What's New for 2023

- ☐ 16:10 Display Optimized Form Factor
- ☐ Available in metal finish w/ tone match KBD
- ☐ 14": 17.9mm thin / 2.97lbs / 1.34kg\*
- ☐ 16": 20.5mm thin / 3.76lbs / 1.70kg\*

- 🔄 New AMD Phoenix Pro FP7 R5/R7 CPUs
- 🔄 LPDDR5x Memory up to 64GB

- 🏠 All-Day Battery Life & Scalable Battery Options
- 🏠 Separate 5MP RGB + IR camera for an immersive video experience
- 🏠 Ultrasonic HPD enabled
- 🏠 Added 1 USB4 Port on AMD Versions

- 📺 OLED Panel Offerings (2.8k on 14" and 4k on 16" ) for more efficient viewing
- 📺 Responsible Design
- 📺 115mm Glass-like TouchPad
- 📺 Service Friendly D Cover Design

- 🔒 BIOS Signing with Hardware Security Module
- 🔒 Capsule-based Firmware Updates

# ThinkPad P16v – Power for the People

- Intel RPL-H & AMD Phoenix-H @45W
- NVIDIA RTX Ada + Intel UMA
- PCIe Gen 4 storage – up to 4TB
- 5600MHz\* DDR5 memory – up to 96GB (Intel only)
- 2x TBT4/USB4
- Wi-Fi 6E + 4G LTE WWAN

**design.**

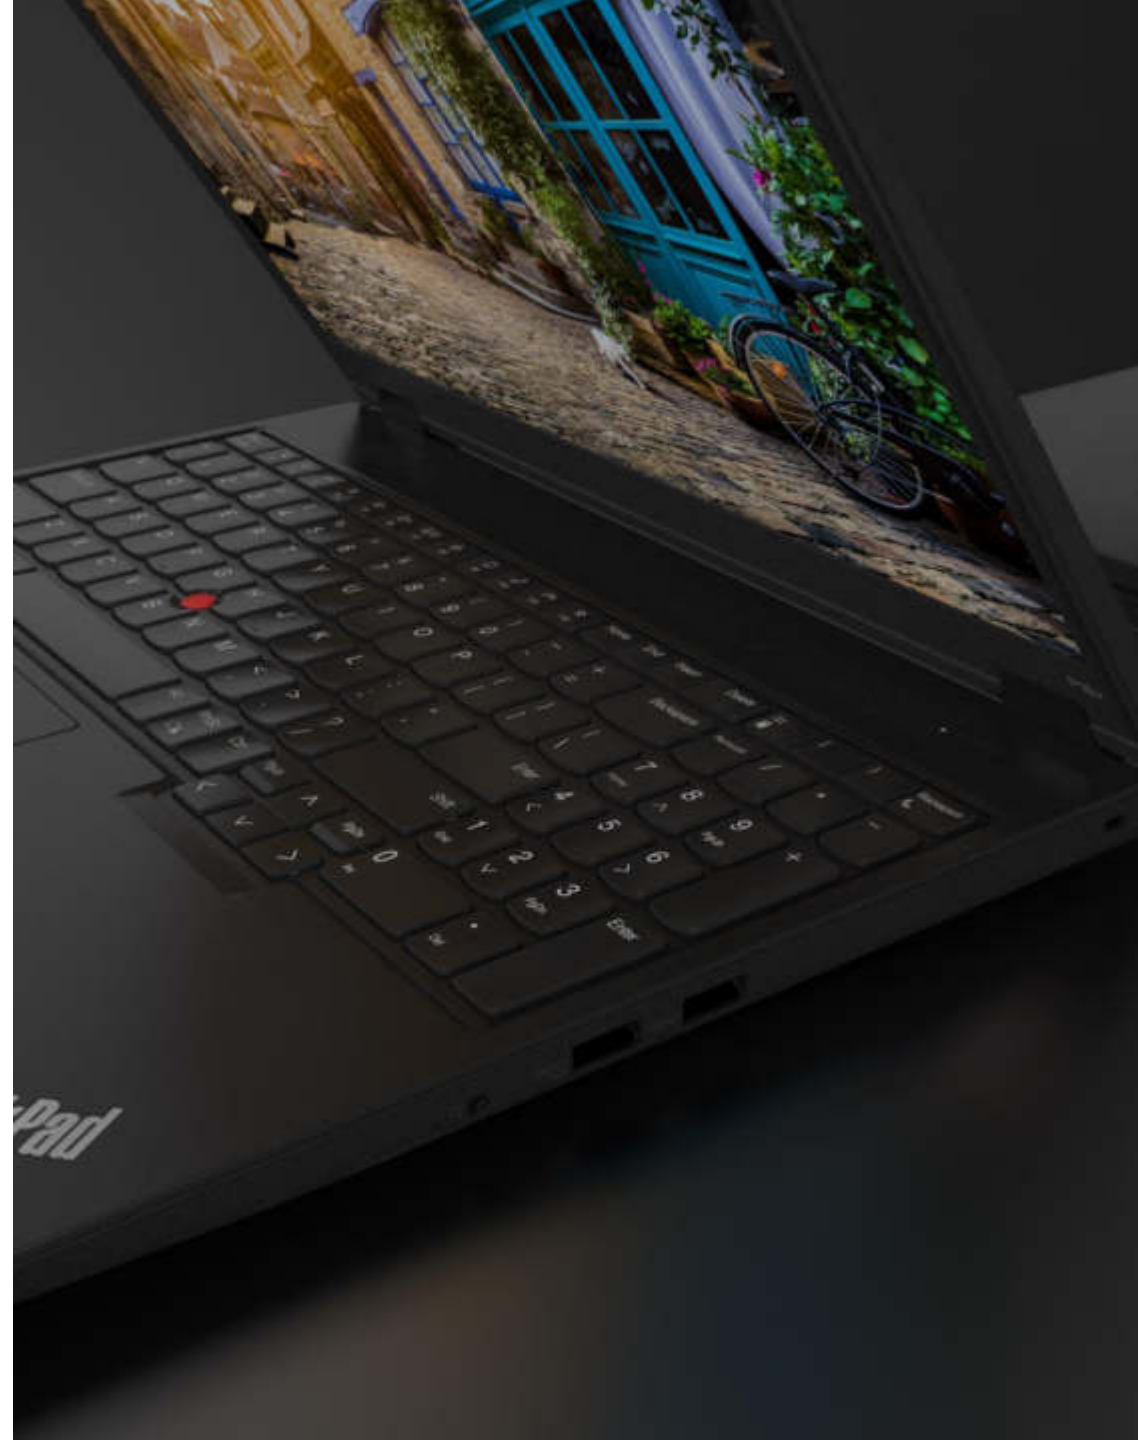

- 16:10 16" displays
- New full-size keyboard w/ NumPad
- FPR in PWR for clean palmrest
- P16 and DTWS design language

- Large wide touchpad
- KBD air intake & dual fan cooling
- FHD/5MP + IR camera w/ HPD
- User facing speakers
- Big 90Whr battery

**ThinkShield**

- FW resiliency 3.0
- Certificate based BIOS authentication
- BIOS modification and event log
- MOC FPR

**Intel RPL-H or  
AMD Phoenix-H  
CPUs**

45W, Up to 14 cores

**NVIDIA  
Graphics**

Up to NV RTX 2000 Ada

**Up to 96GB  
Memory**

DDR5, Dual DIMMs,  
5600MHz\*

**Up to 4TB  
SSD Storage**

2x PCIe Gen 4 Slots

**16" 16:10  
Display**

FHD+ and UHD+ options

**HDR400  
Dolby Vision  
FCC**

(on UHD+)

**Ultra  
Performance  
Mode**

**Windows 11  
& Linux**

Starting at: 365mm x 262mm x 24.66mm

Starting at: 4.85lbs / 2.2kgs

Wi-Fi 6E

4G LTE

NFC

**FHD or 5MP  
Camera**

With IR and privacy shutter

**Dolby Audio  
Dolby Voice**

**90Wh Battery**

135W/170W power adapter

2x USB-A, 2x USB-C  
TBT4, HDMI 2.1, SD  
Express 7.0, Smart Card  
Reader, Audio Jack

**ISV Certified  
&  
MIL-SPEC  
Tested**

# ThinkPad P1 G6 – Premium Thin & Light

## Smarter technology for all

intel.

- Intel Raptor Lake H @45W
- NVIDIA RTX Ada and GeForce
- PCIe Gen 4 storage – up to 8TB
- 5600MHz DDR5 memory – up to 96GB
- 2x TBT4
- Wi-Fi 6E + 4G LTE WWAN

design.

- 16:10 16" displays
- Narrow bezels and high STB
- Thin & light, <4lbs, <18mm
- Excellent I/O selection

- Re-introduce OLED Touch
- FHD/5MP + IR camera w/ HPD
- User facing speakers
- Liquid metal & vapor chamber
- 90Whr battery

ThinkShield

- Increased SPI ROM size
- Certificate based BIOS Authentication
- BIOS Modification and Event Log
- MoC FPR

Lenovo

## Intel 13<sup>th</sup> Gen Raptor Lake H CPUs

45W, Up to 14 cores

## NVIDIA Graphics

Up to NV RTX 5000 Ada 16GB or GF RTX 4090 16GB

## Up to 96GB Memory

DDR5, Dual DIMMs, 5600MHz

## Up to 8TB SSD Storage

2x PCIe Gen 4 Slots  
RAID 0/1

Starting at: 359.5mm x 253.8mm x 17.7mm  
Starting at: 3.99lbs / 1.81kgs

## 16" 16:10 Display

# Warum Remote Workstation Sinn macht !

## Vorteile Workstation Rack Solution:

- Hardware inhouse aber nicht unterm Tisch
- Sparen bei der Plattform
- Sparen bei der ISV Software
- Sparen bei Nvidia Grid Lizenzen

## Vorteile Remote Workstation TGX Software:

- ✓ Sehr geringe Latenz für ein flüssiges arbeiten
- ✓ ISV Support gewährleistet
- ✓ Peripherie und mehrere Displays unterstützt

ENABLING DISCOVERY

## RESOLUTIONS

Supports Large Multi-Monitor, Ultra-High Resolution with as Like Local Experience

## KEEP DATA & IP SECURE

Reduce Risk & Delivery Greater Security & Performance

## COLLABORATORS

Shared Keyboard & Mouse with Separate Encoding Streams; Delivery Maximum Performance

## ULTRA RESPONSIVE

Minimizes Additional Latency for As Local Like Desktop Experience ~10ms

## SOFTWARE AGNOSTIC

Works with ALL ISV Software Applications, ANY Industry Vertical, ANY Project

## BANDWIDTH UTILIZATION

Uses Much Less Network Bandwidth; Providing 2x Faster Frame Rates than Competitor Solutions

# RESOLUTION

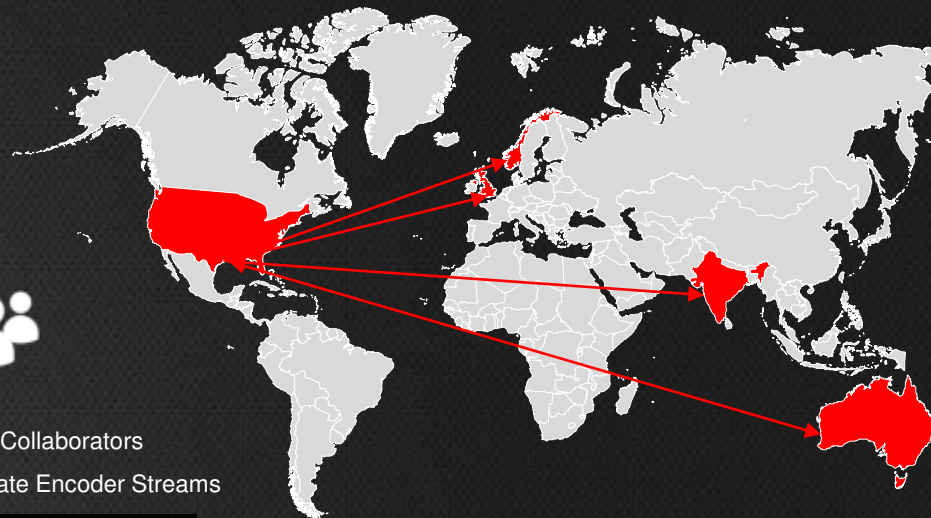

Up to

4K  
FULLHD

4

# COLLABORATION

- Multiple Collaborators
- + Separate Encoder Streams

## THE TGX DIFFERENCE

# LOW BANDWIDTH

# FAST & RESPONSIVE

Accelerated End to End by the Power of NVIDIA Quadro GPUs

QUADRO  
RTX

## THE SENDER

### **NVIDIA Quadro® GPU Optimized**

Leverage NVIDIA® Optimizations for Capturing Pixels, Encoding and Decoding (NVFBC, NVENC, NVDEC)

### **NVIDIA® Dedicated Processing**

TGX does not compete with graphical software apps running on the workstation. NVIDIA GPUs have their own built in h.264 encoder/decoder, removing any additional CPU or GPU workloads

### **Supports Physical & Virtual Workstations**

NVIDIA vGPU Software Enables the GPU to be Virtualized Across Multiple Virtual Machines (*if needed*)

### **Multiple OS Platforms Supported**

Lenovo & TGX Remote Workstation Software Support both Microsoft Windows & Linux Operating Systems.

### **No Special Hardware Required**

Customers already use NVIDIA Quadro® GPUs as part of their ISV Software Application Workflow

# THE RECEIVER

## Hardware Decoding

TGX Remote Workstation uses Hardware Decoding and can Leverage the Power of NVIDIA Quadro® GPUs

## Superior Speed & Performance

Fastest Performance, Always When Leveraging NVIDIA® GPUs end-to-end for Encoding and Decoding

## Best User Experience

Ultimate User Experience for Large Multi-Monito/Desktop Configurations & Project Workflows

## USB Device Support

Continue to use Wacom Tablets, 3DConnexion Devices and More with Direct USB Pass-Through

## Multiple OS Platform Support

Support for Windows or Linux Client Operating Systems

Lenovo recommends  
Windows 11 Pro for Business.

# ThinkReality A3 PC Edition

## Transforming workflow delivery

TechViz Share&Viz wechselt von der Anzeige eines CAD-Modells auf dem PC zu seiner 3D-Darstellung auf dem A3 in Echtzeit (separate Lizenz erforderlich)

### ThinkReality A3 PC Edition key features

#### Hardware

- Qualcomm® XR-1 SmartViewer
- Dual 1080p AR displays
- Integrated speakers and microphone
- Dual fisheye cameras
- 8MP RGB camera
- USB-C connection to PC
- Lightweight (4.6 oz./130 gm)
- Ergonomic fit kit
- IP54 rating

#### Software

- Lenovo Virtual Display Manager
- TechViz Share&Viz (separate license required)
- Windows 11 Pro

# ThinkReality VRX

Six degrees of freedom (6DoF)  
all-in-one VR headset

Organizations taking advantage of:

- Technical skills training
- Interpersonal skills training
- Remote collaboration
- Engineering and design

## 43%

reduced risk of  
workplace injury

"80+ Virtual Reality Statistics 2022," May 2022

## 4x

faster training on  
soft skills compared to  
classroom training

PwC, "VR Soft Skills Training Efficacy Study," 2020

## 275%

of employees were more  
confident about applying new  
skills after VR training

PwC, "VR Soft Skills Training  
Efficacy Study," 2020

# Engineered to impress

# Engineered for enterprise

- Engineered for long life
- Supports 6DoF, 3DoF, and mixed reality (MR) experiences with full-color pass-through
- Secure supply chain and manufacturing process

# ThinkReality Platform

## Cloud Portal

The image displays three screenshots of the ThinkReality Cloud Portal interface. The top screenshot shows the 'Devices' management page with a table of device information. The middle screenshot shows the 'Dashboard' with various metrics and charts. The bottom screenshot shows the 'Apps' management page with a table of application details.
